DPE Digital Preservation Trainers

DigitalPreservationEurope, building on the earlier successful work of ERPANET, facilitates pooling of the complementary expertise that exists across the academic research, cultural, public administration and industry sectors in Europe. DigitalPreservationEurope (DPE) fosters collaboration and synergies between many existing national initiatives across the European Research Area. DPE addresses the need to improve coordination, cooperation and consistency in current activities to secure effective preservation of digital materials.

Core Partners: HATII at the University of Glasgow (Co-ordinator), Technische Universität Wien, Statsbiblioteket, Nationaal Archief van Nederland, Národní knihovna Ceske republiky, Ministero Per I Beni E Le Attività Culturali, Fondazione Rinascimento Digitale, Vilnius University Faculty of Communication, FernUniversität Hagen.

Areas of Expertise: - Digital libraries
                                - Digitization projects
                                - Metadata formats
                                - Access to digitized docs

Mgr. Adolf Knoll – professional CV

Director for Science, Research International Co-operation and Deputy Director-General at the National Library of the Czech Republic. Since 1992 he is responsible for the Memoriae Mundi Series Bohemica, a programme of digital access to rare library materials – see the digital library Manuscriptorium. From 1995-1996 he was a member of the ad-hoc EU committee for co-operation with CEE libraries. From 1996 on he has been responsible for the Czech participation in several European projects in the Telematics for Libraries and later IST area (since the 4th FP) and Eureka. From 2003-2005 he was teaching digitization courses for librarians at home and abroad, mostly on behalf of the OSI Network Library Programme. From 1997-2000 he was a member of the UNESCO International Advisory Committee for the Memory of the World programme; since 1996 he is a member of its Sub-Committee on Technology. He is the author of many publications and articles, mostly on digitization. He held presentations at various international seminars and conferences. He was also the main administrator of several RTD and other projects concerning digitization and related technologies. He is also author of XML schemas used as national standards for digitized periodicals and digitized monographs - see also http://digit.nkp.cz. He was the architect of success at the National Library when it was awarded the world UNESCO Jikji prize for work in preservation of and digital access to documentary heritage in 2005. He is member of the High Level Expert Group on Digital Libraries of the European Commission and member of the Strategy Group for coordinating Library Archive and Museum Cooperation in the European Digital Library at the European Commission. For his contribution to digitization of cultural heritage, he was awarded the national prize for development of Czech cuture in 2006.
