

DPE Digital Preservation Trainers

DigitalPreservationEurope, building on the earlier successful work of ERPANET, facilitates pooling of the complementary expertise that exists across the academic research, cultural, public administration and industry sectors in Europe.

DigitalPreservationEurope (DPE) fosters collaboration and synergies between many existing national initiatives across the European Research Area. DPE addresses the need to improve coordination, cooperation and consistency in current activities to secure effective preservation of digital materials.

Andreas Rauber – Curriculum Vitae

Dr. Rauber has been a member of the Academic Faculty of the Department of Software Technology and Interactive Systems at the Vienna University of Technology since 1997. He received his M.S. and Ph.D. in Computer Science from the Vienna University of Technology in 1997 and 2000, respectively.

In 2001 he joined the National Research Council (CNR) of Italy in Pisa as an ERCIM Research Fellow, followed by an ERCIM Visiting Researcher position at the French National Institute for Research in Computer Science and Control (INRIA) in Paris, in 2002. Additionally, he serves on the board of the IEEE Technical Committee on Digital Libraries (TCDL). He is a member of the Association for Computing Machinery (ACM), The Institute of Electrical and Electronics Engineers (IEEE), and the Austrian Society for Artificial Intelligence (ÖGAI).

He is actively involved in several research projects in the field of Digital Libraries, focusing on the organization and exploration of large information spaces, as well as Web archiving and digital preservation. He has published numerous papers in refereed journals and international conferences and served as PC member and reviewer for several major journals, conferences and workshops. In 2002 he received the Cor Baayen Award of the European Research Consortium for Informatics and Mathematics. His research interests, apart from web archiving and digital preservation, include text and music information retrieval and organization, information visualization, as well as data analysis and neural computation.
